~~Steves' Review of Nuclear Medicine~~

Earlier editions of Review of Nuclear

Medicine Technology: Preparation for
Certification Examinations were a must-
have for anyone taking the NMTCB or
ARRT boards in nuclear medicine

technology. On the retirement of Prof. Ann
Steves, the NMT program director at the
University of Alabama Birmingham and the
original author, the task of authoring this
important review book was taken on by her
replacements at the University of Alabama
Birmingham, Norman Bolus and Amy
Brady.

Preparation For Certification Examinations 4th Edition

This book presents a comprehensive review of nuclear cardiology principles and concepts necessary to pass the Nuclear Cardiology Technology Specialty Examination. The practice questions are similar in format and content to those found on the Nuclear Medicine Technology Certification Board (NMTCB) and American Registry of Radiological Technologists (ARRT) examinations, allowing test takers to maximize their chances of success. The book is organized by test sections of increasing difficulty, with over 600 multiple-choice questions covering all areas of nuclear cardiology, including radionuclides, instrumentation, radiation safety, patient care, and diagnostic and therapeutic procedures. Detailed answers and explanations to the practice questions follow. It also includes helpful test-taking

File Type PDF Steves Review Of Nuclear

tips. Supplementary appendices include commonly used abbreviations and symbols in nuclear medicine, glossary of cardiology terms, and useful websites. Nuclear Cardiology Study Guide is a valuable reference for nuclear medicine technologists, nuclear medicine physicians, and all other imaging professionals in need of a concise review of nuclear cardiology.

Comprehensive pocket reference Up-to-date questions and answers regarding NRC regulations

Part of the Rats trilogy, international bestseller James Herbert's *Domain* pits man against mutant rats, who are back with a vengeance. The long-dreaded nuclear conflict. The city torn apart, shattered, its people destroyed or mutilated beyond hope.

File Type PDF Steves Review Of Nuclear

For just a few, survival is possible only beneath the wrecked streets - if there is time to avoid the slow-descending poisonous ashes. But below, the rats, demonic offspring of their irradiated forebears, are waiting. They know that Man is weakened, become frail. Has become their prey . . .
