Making government more responsive and efficient. Two important objectives of Progressivism were giving the public the opportunity to participate more directly in the political process and limiting the power of big city bosses. Progressives hoped to accomplish these goals through a variety of political reforms.

“This may be the most influential book you will read this year.” —Lee Strobel, bestselling author of The Case for Miracles
A Movement Seeks to Redefine Christianity. Some Think that It Is a Much-Needed Progressive Reformation. Others Believe that It Is an Attack on Historic Christianity.
Alisa Childers never thought she would question her Christian faith. She was raised in a Christian home, where she had seen her mom and dad feed the hungry, clothe the homeless, and love the outcast. She had witnessed God at work and then had dedicated her own life to leading worship, as part of the popular Christian band ZOEgirl. All that was deeply challenged when she met a progressive pastor, who called himself a hopeful agnostic. Another Gospel? describes the intellectual journey Alisa took over several years as she wrestled with a series of questions that struck at the core of the Christian faith. After everything she had ever believed about God, Jesus, and the Bible had been picked apart, she found herself at the brink of despair . . . until God rescued her, helping her to rebuild her faith, one solid brick at a time. In a culture of endless questions, you need solid answers. If you or someone you love has encountered the ideas of progressive Christianity and aren't sure how to respond, Alisa's journey will show you how to determine—and rest in—what's unmistakably true.

This study recreates the intellectual climate and transatlantic setting of turn-of-the-century American reform. It examines the influence and meaning of German social thought and reform in the American Reform Movement prior to World War I. The American Progressives used the German theories in order to develop and establish new concepts of reform and to base democracy on principles other than possessive individualism, utilitarian ethics, and market ideology that liberalism held in stock. However, due to the war these reforms lost their radical character. In the end, the progressive quest for a broader sphere of public control, participatory models of reform, and social ethics yielded to the liberal model of regulation, business co-operation, and administrative efficiency, and to the moralistic agenda of prohibition and immigration control. "Axel R. Schfer's fine study of what American progressives learned from their German counterparts adds to the growing literature illuminating the cosmopolitan breadth and ideological daring of turn-of-the-century reform. [] It is a testament to the argumentative force of this insightful work that it so clarifies and deepens the vital debate over the progressive legacy in our new Gilded Age." The Journal of American History "Schfer did not intend to offer an exhaustive treatment; instead, he wished to show that part of progressive thought was not merely home grown, a relection of narrow, moralistic Protestantism (220), but had some German roots, too. This he did well, and readers may mine his chapters for other insights" German Studies Review "Axel R. Schfers kenntnisreiche, methodisch reflektierte und quellengestützte Untersuchung legt die bis vor kurzem nur wenig beachteten transatlantischen Bezüge der „progressiven Bewegung an der Wende vom 19. zum 20. Jahrhundert frei und bettet dieses, als „sehr amerikanisch geltende Reformphnomen strker in seinen weltlichen Gesamtzusammenhang ein. Schfer wird daher nicht nur von Amerikaspezialisten mit Gewinn gelesen werden, sondern auch von Historikern, die sich mit interkulturellen Austauschprozessen beschäftigen." Das Historisch-Politische Buch "Selten jedenfalls ist die Krise des Progressivism im Ersten Weltkrieg so klar analysiert worden wie hier" Historische Zeitschrift "Anachronismen vermeidend und mit groer Fähigkeit zur Empathie zeichnet Schfer die Motive und Vorstellungswelten der Akteure nach, ohne sie von vornherein zu verurteilen. Auf diese Weise gelingt ihm eine sehr differenzierte Darstellung" Neue Politische Literatur.

"In Being Right Is Not Enough, political analyst Paul Waldman offers Democrats and progressives a clear-eyed, multifaceted strategy for victory in elections, policy debates, and the fundamental battle between progressivism and conservatism. The time has come, he says, for progressives to borrow several pages from the right-wing playbook and beat them at their own game. The book outlines an exhaustive list of things progressives must do, and do soon."--BOOK JACKET.

The New York Times best-selling book exploring the counterproductive reactions white people have when their assumptions about race are challenged, and how these reactions maintain racial inequality. In this “vital, necessary, and beautiful book” (Michael Eric Dyson), antiracist educator Robin DiAngelo deftly illuminates the phenomenon of white fragility and “allows us to understand racism as a practice not restricted to ‘bad people’ (Claudia Rankine). Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions such as anger, fear, and guilt, and by behaviors including argumentation and silence. These behaviors, in turn, function to reinstate white racial equilibrium and prevent any meaningful cross-racial dialogue. In this in-depth exploration, DiAngelo examines how white fragility develops, how it protects racial inequality, and what we can do to engage more constructively.

The settlement house movement, launched at the end of the nineteenth century by men and women of the upper middle class, began as an attempt to understand and improve the social conditions of the working class. It gradually came to focus on the "new immigrants"—mainly Italians, Slavs, Greeks, and Jews—who figured so prominently in this changing working class. Hull House, one of the first and best-known settlement houses in the United States, was founded in September 1889 on Chicago's West Side by Jane Addams and Ellen G. Starr. In a major new study of this famous institution and its place in the movement, Rivka Shpak Lissak reassesses the impact of Hull House on the nationwide debate over the place of immigrants in American society.

One of our most beloved comedians, the brilliantly witty and outspoken star of The View, hits the most unpopular President ever elected where it hurts—and makes us laugh and cheer—in this hilarious alphabetical guide to everything that’s wrong with the “Orange One.” Donald Trump. Put down the knife. Lock away the gun. Lay aside the nose. Joy Behar is here to save you from suicide as she hot walks you through the next four years (two if we are lucky, less if liberal dreams come true). Besides despair, the sane response to the insanity in the White House is laughter. On her hit ABC daytime show The View, Joy has been blunt in her condemnation of the comb over-in-chief, and her words have electrified and inspired millions in the resistance for whom #notmypresident has become a rallying cry. The Great Gasbag is Joy’s answer to the hell that is the Trump Orange House. Structured as an A-Z guide (G is for Gold. . . .en shower; P is for Pence and pussy-grabbing; T is for Tweets; Twits, and Twats, etc.), Joy, joined by New York Times bestselling humor author Larry Amoros, offers much-needed doses of levity and humor for everyone determined to #resist. With a major network television profile and a social media audience in the millions, this fearlessly confident star has a powerful platform to entertain Americans of all stripes—from Never Trumppers to fired-up progressives—as she takes on the worst president since . . . well, since ever.

Presents a groundbreaking investigation into the origins of morality at the core of religion and politics, offering scholarly insight into the motivations behind cultural clashes that are polarizing America.

After decades of conservative dominance, the election of Barack Obama may signal the beginning of a new progressive era. But what exactly is progressivism? What role has it played in the political, social, and economic history of America? This very timely Very Short Introduction offers an engaging overview of progressivism in America—its origins, guiding principles, major leaders and major accomplishments. A many-sided reform movement that lasted from the late 1890s until the early 1920s, progressivism emerged as a response to the excesses of the Gilded Age, an era that plunged working Americans into poverty while a new class of ostentatious millionaires built huge mansions and flaunted their wealth. As capitalism ran unchecked and more and more economic power was concentrated in fewer and fewer hands, a sense of social crisis was pervasive. Progressive national leaders like William Jennings Bryan, Theodore Roosevelt, Robert M. La Follette, and Woodrow Wilson, as well as muckraking journalists like Lincoln Steffens and Ida Tarbell, and social workers like Jane Addams and Lillian Wald answered the growing call for change. They fought for worker’s compensation, child labor laws, minimum wage and maximum hours legislation; they enacted anti-trust laws, improved living conditions in urban slums, instituted the graduated income tax, won women the right to vote, and laid the groundwork for Roosevelt’s New Deal. Nugent shows that the progressives—with the glaring exception of race relations—shared a common conviction that society should be fair to all its members and that governments had a responsibility to see that fairness prevailed. Offering a succinct history of the broad reform movement that upset a stagnant conservative orthodoxy, this Very Short Introduction reveals many parallels, even lessons, highly appropriate to our own time. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.
