tape diagram ~ A Maths Dictionary for Kids Quick Reference ...

Tape diagram. A rectangular visual model resembling a piece of tape with divisions used to assist mathematical calculations. Also known as a divided bar model, fraction strip, length model or strip diagram. In mathematics education, it is used to solve word problems.

Tape diagram - Wikipedia

A tape diagram is a model that pictorially represents a word problem. Once the word problem is accurately modeled, the student has an easier time seeing which operations to use in solving the problem. The tape diagram does not do the calculations for the student, but it does make it easier for the student to see which calculations might be needed.
