Returning from Paris to discover a murder victim in her driveway, Boston medical examiner Maura Isles is shocked to discover that the victim looks exactly like her and is a twin sister she never knew.

When Boston homicide detective Jane Rizzoli and medical examiner Maura Isles are summoned to a crime scene, they find a killing worthy of the most ferocious beast--right down to the claw marks on the corpse. But only the most sinister human hands could have left renowned big-game hunter and taxidermist Leon Gott gruesomely displayed like the once-proud animals whose heads adorn his walls. Did Gott unwittingly awaken a predator more dangerous than any he's ever hunted?

Dr. Catherine Cordell, recovering from a brutal attack and hiding her fear behind a mask of professionalism, is the only one that can stop a psychotic killer known as "The Surgeon," due to his horrific methods of murder, before he kills again. 100,000 first printing.

Investigating the brutal murder of one nun and the critical injury of another within a cloistered convent, medical examiner Maura Isles and homicide detective Jane Rizzoli stumble upon long-buried secrets that link these horrific crimes.

Two separate homicides, at different locations, with unrelated victims, have more in common than just being investigated by Boston PD detective Jane Rizzoli and medical examiner Maura Isles. In both cases, the bodies bear startling wounds - yet the actual cause of death is unknown. It's a doubly challenging case for the cop and the coroner to be taking on, at a fraught time for both of them. As Jane struggles to save her mother from the crumbling marriage that threatens to bury her, Maura grapples with the imminent death of her own mother - infamous serial killer Amalthea Lank. While Jane tends to her mother, there's nothing Maura can do for Amalthea, except endure one final battle of wills with the woman whose shadow has haunted her all her life. Though succumbing to cancer, Amalthea hasn't lost her taste for manipulating her estranged daughter - this time by dangling a cryptic clue about the two bizarre murders Maura and Jane are desperately trying to solve. But whatever the dying convict knows is only a piece of the puzzle. Soon the investigation leads to a secretive young woman who survived a shocking abuse scandal, an independent horror film that may be rooted in reality, and a slew of martyred saints who died cruel and unusual deaths. And just when Rizzoli and Isles think they've cornered a devilish predator, the long-buried past rears its head - and threatens to engulf more innocent lives, including their own.

medical thriller. Now, in a new blockbuster, Gerritsen melds page-turning suspense with chilling realism as a small-town doctor races to unravel the roots of a violent outbreak -- before it destroys everything she loves. Lapped by the gentle waters of Locust Lake, the small resort town of Tranquility, Maine, seems like the perfect spot for Dr. Claire Elliot to shelter her adolescent son, Noah, from the distractions of the big city and the lingering memory of his father's death. But with the first snap of winter comes shocking news that puts her practise on the line: a teenage boy under her care has committed an appalling act of violence. And as Claire and all of Tranquility soon discover, it is just the start of a chain of lethal outbursts among the town's teenagers. As the rash of disturbing behavior grows, Claire uncovers a horrifying secret: this is not the first time it has happened. Twice a century, the children of Tranquility lash out with deadly violence. Claire suspects that there is a biological cause for the epidemic, and she fears that the placid Locust Lake may conceal an insidious danger. As she races to save Tranquility -- and her son -- from harm, Claire discovers an even greater threat: a shocking conspiracy to manipulate nature, and turn innocents to slaughter.
