The book is incredibly detailed in terms of farm life scenarios, life and death of animals, plowing the fields, sowing the fields, gathering maple syrup, and so on. At times the book made me uncomfortable with its descriptions of slaughtering; however, that is the point of the book: We need to know where our food comes from.

Food for Life began as a campaign by the Soil Association, in 2003 with the aim of changing school food for the better. Since then, both the Soil Association and Food for Life have continued to campaign around the theme of Good Food for All, on the basis that we want everyone to be able to access food that is good for them and good for the planet. You'll find some of our key policy reports and campaign documents here.
