**How**

The brains of highly sensitive persons (HSPs) actually work a little differently than others'. To learn more about this, see Research. You are more aware than others of subtleties. This is mainly because your brain processes information and reflects on it more deeply.

## *The Highly Sensitive Person*

HSP, shorthand for "highly sensitive person," describes 15 to 20 percent of the population. Being sensitive is a normal trait--nothing defective about it. But you may not realize that, because society rewards the outgoing personality and treats shyness and sensitivity as something to be overcome.

## *The Highly Sensitive Person: How to Thrive When the World ...*

"Shy people fear being judged or rejected, whereas highly sensitive people have a keen awareness of their environment, frequently becoming overstimulated by it." — Self "If you are easily overwhelmed by noise, chaos, and emotions; perform poorly when being observed; and require time alone each day, there is no need to worry; recent research shows your heightened sensitivity can do you more good than harm."

## *The Highly Sensitive Person: How to Thrive When the World ...*

Highly Sensitive Person, or HSP, is a term coined by psychologist Elaine Aron. According to Aron's theory, HSPs are a subset of the population who are high in a personality trait known as...

## *Highly Sensitive Person | Psychology Today*

The sensitivity trait is merely a part of an individual's personality. Being highly sensitive need not limit a person's enjoyment of life, but it will impact everything from relationships with others to the work one chooses to do. **THE HIGHLY SENSITIVE PERSON** is less self-help and more self-acceptance, however, Aron offers suggestions!

## *The Highly Sensitive Person - How to... book by Elaine N. Aron*

Reclaim your power from narcissists, manipulators, and other toxic people. If you're a highly sensitive person, or identify as an "empath," you may feel easily overwhelmed by the world around you, suffer from "people-pleasing," experience extreme anxiety or stress in times of conflict, or even take on the emotions of others.

*Home - Eileen Burns*

What is a Highly Sensitive Person? Highly sensitive persons are individuals more attuned to the subtleties of the environment, whose brains process and reflect on information more deeply, are often socially inhibited by nature, and prefer their own rich inner world to the external world. HSPs are more likely to experience overstimulation or overarousal of the nervous system because they take in ...
