~~International human rights law: the normative framework ...~~

International humanitarian law ( IHL ), also referred to as the laws of armed conflict, is the law that regulates the conduct of war ( jus in bello ). It is a branch of international law which seeks to limit the effects of armed conflict by protecting persons who are not participating in hostilities, and by restricting and regulating the means and methods of warfare available to combatants .

~~International humanitarian law —Wikipedia~~

International law as a system is complex. Although in principle it is “horizontal,” in the sense of being founded upon the concept of the equality of states—one of the basic principles of international law—in reality some states continue to be more important than others in creating and maintaining international law.
