## **Linklaters**

## **Corporate And Financial Law**

Essentially, the world's capital markets are trading floors (either real or virtual) on which cash-hungry businesses obtain funding by selling a share of their business (equity) or receiving a loan (debt) from lenders. These 'markets' are used by companies with unique financing needs which traditional bank loans cannot satisfy.

### **Capital markets - Chambers Associate**

The International Capital Markets Review - Edition 9, This book serves two purposes - one obvious, but the other possibly less so. Quite obviously, and one reason for its continuing popularity, the book addresses the comparative law aspect of our readers' international capital markets (ICM) workload and equips them with a reference source.
