BBC - Scotland's History - The Lords of the Isles

The Lords of the Isles were so powerful that they managed to maintain control of much of the highlands and islands as a separate kingdom right up until the year 1493. They built a tough but civilised and largely democratic society where people used sailing ships much as we use cars today.

The Lords of the Isles by Ronald Williams

The "Lordship of the Isles" is an evocative, romantic title. It harks back to a period on the far side of recorded history, where established historical fact begins to fade into legend and sagas. Over the five hundred years from 1000 to 1500 the place we now call Scotland only slowly established its northern and western boundaries. At the start of the period much of the north and west of the mainland, and the northern and western isles and the Isle of Man, were all in the ...

Scotfax: Lordship of the Isles on
Undiscovered Scotland

The Lords of the Isles continued to cause trouble for Scots kings (even sailing to the capital and sacking it) right up until the 16th century. It is from an Englishmen chronicle that we have some description of these warriors. "From the mid-leg to the foot, they go uncovered.

vessel in the CalMac fleet.

MV Lord of the Isles - Wikipedia

The islands concerned are sometimes referred to as the Kingdom of Mann and the Isles, although only some of the later rulers claimed that title. At times the rulers were independent of external control, although for much of the period they had overlords in Norway, Ireland, England, Scotland or Orkney.

Williams reflects, 'Today it [Finlaggan] is a disappointing place - a loch set in featureless moorland, with a few pillars of crumbled masonry and outlines in the earth, which convey an atmosphere of dissolution, an abandoned place, empty of travellers, and a silent testimony to the transience of earthly kingdoms.'
