Dr. Seuss presents three modern fables in the rhyming favorite Yertle the Turtle and Other Stories. The collection features tales about greed ("Yertle the Turtle"), vanity ("Gertrude McFuzz"), and pride ("The Big Brag"). In no other book does a small burp have such political importance! Yet again, Dr. Seuss proves that he and classic picture books go hand in hand.

It's 1776, and the Revolutionary War is raging. Fourteen-year-old Nathan Wade is a patriot, but he's too young to join the fight. Then his cousin David Bushnell comes to town with a secret. David has designed a water machine that can explode bombs underwater. And his mission is to launch it against the British warships in New York harbor.Nate reluctantly agrees to help David build the weapon of war -- dubbed the American Turtle. Although he's terrified of water and worried about getting caught, when unlikely circumstances put Nate at the center of the action, he must face the murky waters of his fears head-on.Based on actual historical events, this adventure story captures the drama of the first submarine used in naval warfare and the struggles of a teenager overcoming self-doubt.

"We're going to raise traders just like they raise turtles in Singapore." So trading guru Richard Dennis reportedly said to his long-time friend William Eckhardt nearly 25 years ago. What started as a bet about whether great traders were born or made became a legendary trading experiment that, until now, has never been told in its entirety. Way of the Turtle reveals, for the first time, the reasons for the success of the secretive trading system used by the group known as the "Turtles." Top-earning Turtle Curtis Faith lays bare the entire experiment, explaining how it was possible for Dennis and Eckhardt to recruit 23 ordinary people from all walks of life and train them to be extraordinary traders in just two weeks. Only nineteen years old at the time-the youngest Turtle by far-Faith traded the largest account, making more than \$30 million in just over four years. He takes you behind the scenes of the Turtle selection process and behind closed doors where the Turtles learned the lucrative trading strategies that enabled them to earn an average return of over 80 percent per year and profits of more than \$100 million. You'll discover how the Turtles made money-the principles that guided their trading and the step-by-step methods they followed. Why, even though they used the same approach, some Turtles were more successful than others How to look beyond the rules as the Turtles implemented them to find core strategies that work for any tradable market How to apply the Turtle Way to your own trades-and in your own life Ways to diversify your trading and limit your exposure to risk Offering his unique perspective on the experience, Faith explains why the Turtle Way works in modern markets, and shares hard-earned wisdom on taking risks, choosing your own path, and learning from your mistakes.

During the Revolutionary War, fourteen-year-old Nathan Wade joins forces with his older cousin, the inventor David Bushnell, to secretly build the first submarine used in naval warfare. Reprint.

The Turtle Warrior is the story of the Lucas family, who live in a beautiful and remote part of Wisconsin inhabited by working-class European immigrants and the Ojibwe. By 1967 the Lucas farm has fallen into disrepair, thanks to the hard drinking of John Lucas, who brutalizes his wife and two sons. When the eldest, James, escapes by enlisting to fight in Vietnam, he leaves young Bill alone to protect his mother with only his own will and the spirit of his brother to guide him. Beautifully written and deeply felt, The Turtle Warrior takes readers from the heartland of America to the battlefields of World War II and Vietnam weaving a haunting tale of an unforgettable world where the physical and spiritual, the past and the present, merge.

Praised by the Horn Book as "both quiet and exhilarating," this novel by the acclaimed poet and National Book Award Finalist Naomi Shihab Nye follows Aref Al-Amri as he says goodbye to everything and everyone he loves in his hometown of Muscat, Oman, as his family prepares to move to Ann Arbor, Michigan. This book was awarded a 2015 Middle East Book Award, was named a Notable Book by the American Library Association, and includes extra material by the author. Aref Al-Amri does not want to leave Oman. He does not want to leave his elementary school, his friends, or his beloved grandfather, Siddi. He does not want to live in Ann Arbor, Michigan, where his parents will go to graduate school. His mother is desperate for him to pack his suitcase, but he refuses. Finally, she calls Siddi for help. But rather than pack, Aref and Siddi go on a series of adventures. They visit the camp of a thousand stars deep in the desert, they sleep on Siddi's roof, they fish in the Gulf of Oman and dream about going to India, and they travel to the nature reserve to watch the sea turtles. At each stop, Siddi finds a small stone that he later slips into Aref's suitcase--mementos of home. Naomi Shihab Nye's warmth, attention to detail, and belief in the power of empathy and connection shines from every page. Features black-and-white spot art and decorations by Betsy Peterschmidt.

"Magnificent . . . A joyful, hopeful book. Safina gives us ample reasons to be enthralled by this astonishing ancient animal--and ample reasons to care." --Los Angeles Times As Carl Safina's compelling natural history adventure makes clear, the fate of the leatherback turtle is in our hands. The distressing decline of these ancient sea turtles in Pacific waters and their surprising recovery in the Atlantic illuminate the results--both positive and negative--of our interventions and the lessons that can be applied, globally, to restore the oceans and their creatures. We accompany award-winning natural history expert Safina and his colleagues as they track leatherbacks across the world's oceans and onto remote beaches of every continent, including a thrilling journey from Monterey, California, to nesting grounds in Papua, New Guinea. Throughout, in his peerless prose, Safina captures the delicate interaction between these gentle giants and the humans who are playing a significant role in their survival.

In the aquarium at the London Zoo, three sea turtles swim endlessly in 'their little bedsitter of ocean'. Two lonely people, William G and Neaera H, become obsessed with the turtles' captivity, and resolve to rescue them and release them in to the sea. William's and Neaera's diaries tell the story of how they achieve the turtles' freedom, and in the process re-define their own lives.
