Many Filipino Americans feel obligated to give charitably to their families, their communities, or social development projects and organizations back home. Their contributions provide relief to poor or vulnerable Filipinos, and address the forces that maintain poverty, vulnerability, and exploitative relationships in the Philippines. This philanthropy is a result of both economic globalization and the migration of Filipino professionals to the United States. But it is also central to the moral economies of Filipino migration, immigration, and diasporic return. Giving-related practices and concerns--and the bonds maintained through giving--infuse what it means to be Filipino in America. Giving Back shows how integral this system is for understanding Filipino diaspora formation. Joyce Mariano "follows the money" to investigate the cultural, social, economic, and political conditions of diaspora giving. She takes an interdisciplinary approach to reveal how power operates through this charity and the ways the global economic and cultural dimensions of this practice reinforce racial subordination and neocolonialism. Giving Back explores how this charity can stabilize overlapping systems of inequality as well as the contradictions of corporate social responsibility programs in diaspora.

Does globalization alleviate world poverty or contribute to it? Does it harm local culture or bring people together? Has free trade hurt the poor more than helped? What are globalization's effects on the environment and human rights? This book is a forum where dynamic youth from around the world debate these issues. Contained in this volume are provocative articles from both sides of this controversial debate. "In these pages, we hear youth speak about what is right with globalization, what is wrong, and how diverse actors can join forces in ensuring tomorrow's peace, security, and sustainability. I am happy to

commend this book to anyone who wants to share the visions of our world's youth on the important issues of our day." -
Bhichai Rattakul Former President of Rotary International & Foreign Minister of Thailand "

James Joyce's preoccupation with space—be it urban, geographic, stellar, geometrical or optical—is a central and idiosyncratic feature of his work. In *Making Space in the Works of James Joyce*, some of the most esteemed scholars in Joyce studies have come together to evaluate the perception and mental construction of space, as it is evoked through Joyce's writing. The aim is to bring together several recent trends of literary research and criticism to bear on the notion of space in its most concrete sense. The essays move dialectically out of an immediate focus on the phenomenological and intra-psychic, into broader and wider meditations on the social, urban and collective. As Joyce's formal experiments appear the response to the difficulty of enunciating truly the experience of lived space, this eventually leads us to textual and linguistic space. The final contribution evokes the space with which Joyce worked daily, that of his manuscripts—or what he called "paperspace." With essays addressing all of Joyce's major works, this volume is a critical contribution to our understanding of modernism, as well as of the relationship between space, language, and literature.

James Joyce and After: Writer and Time is a volume of essays examining various aspects of time in literature, starting with the modernist revolution in fictional time initiated, among others, by Joyce, up until the present. In Part One: "James Joyce and Commodius Vicus of Recirculation," the largest group of essays offers new and insightful readings of *Finnegans Wake*, *Ulysses*, *Dubliners* and *Pomes Penyeach*, reflecting a variety of Joyce's experiments with time as well as demonstrating patterns and cross-references in his lifelong artistic explorations. Part Two: "Writer and Private Time," focuses on selected literary responses to subjective experience of time. The articles analyse Joyce's epiphanies, Elizabeth Bishop's rendition of a lyrical moment in her poetry, as well as the interplay of fiction and autobiography in the writings of Joseph Conrad and J. M. Coetzee. Another article in this section uses the Bakhtinian concept of chronotope to emphasise simultaneity of reading and writing in the newly defined genre of liberature. At the other end of the (temporal) spectrum, the articles in Part Three: "Writer and Public Time," devoted to recent fiction, testify to the constant need for seeking new ways of recording the temporal dimension of collective experience. It is argued that the engagement with Victorianism in contemporary fiction has resulted in a special treatment of time involving duality of temporal levels, while the emerging post-9/11 genre takes account of the new audiovisual media in order to respond to one of the most traumatic experiences in contemporary history.

In this landmark book, leading international scholars from North America, Europe and the UK offer a sustained critical attention to the concept of silence in Joyce's writing. Examining Joyce's major works, including *Ulysses*, *Portrait of the Artist as a Young Man* and *Finnegans Wake*, the critics present intertextual and comparative interpretations of Joyce's deployment of silence as a complex overarching narratological strategy. Exploring the many dimensions of what is revealed in the absences that fill his writing, and the different roles – aesthetic, rhetorical, textual and linguistic – that silence plays in Joyce's texts, *James Joyce's Silences* opens up important new avenues of scholarship on the great modernist writer. This volume is of particular interests to

all academics and students involved in Joyce and Irish studies, modernism, comparative literature, poetics, cultural studies and translation studies.

Decentering Citizenship follows three groups of Filipina migrants' struggles to belong in South Korea: factory workers claiming rights as workers, wives of South Korean men claiming rights as mothers, and hostesses at American military clubs who are excluded from claims—unless they claim to be victims of trafficking. Moving beyond laws and policies, Hae Yeon Choo examines how rights are enacted, translated, and challenged in daily life and ultimately interrogates the concept of citizenship. Choo reveals citizenship as a language of social and personal transformation within the pursuit of dignity, security, and mobility. Her vivid ethnography of both migrants and their South Korean advocates illuminates how social inequalities of gender, race, class, and nation operate in defining citizenship. *Decentering Citizenship* argues that citizenship emerges from negotiations about rights and belonging between South Koreans and migrants. As the promise of equal rights and full membership in a polity erodes in the face of global inequalities, this decentering illuminates important contestation at the margins of citizenship.

Hailed by many as the best novel of all time, and cursed by just as many as utterly unreadable, one thing 's for sure: *Ulysses* is one of a kind. Those who are willing to take on this behemoth of a book will be rewarded with a trip through almost every variety of human experience under the sun. Summaries and commentaries will keep you on track as you step into the daily life of Stephen Dedalus and Leopold Bloom and watch their stories unfold. In-depth character analysis, critical essays, and insight into the novel's literary devices will help unlock the novel 's deeper layers. You'll also discover background information on the life of James Joyce and the creation of this, his most famous work.

"James Joyce: Developing Irish Identity" follows the increasing focus on Irish identity in Joyce's major works of prose. This book traces the development of the idea of Ireland, the concept of Irishness, the formation of a national identity and the need to deconstruct a nationalistic self-conception of nation in Joyce's work. Through close reading of "Dubliners", "A Portrait of the Artist as a Young Man", "Stephen Hero" and "Ulysses", Joyce articulates the problems that colonialism poses to a nation-state that cannot create its identity autonomously. Furthermore, this reading uncovers Joyce's conception of national identity as increasingly sophisticated and complicated after Irish independence was won. From here, Halloran argues that Joyce presents his readers with ideas and suggestions for the future of Ireland. As Irish studies become increasingly imbricated with postcolonial discourse, the need for re-examination of classic texts becomes necessary."James Joyce: Developing Irish Identity" provides a new approach for understanding the dramatic development of Joyce's oeuvre by providing a textual analysis guided by postcolonial theory.
