The unique, type-approved Volvo Penta IPS system improves productivity and performance for operators who value maneuverability, fuel efficiency and on-board comfort. The key to these exceptional qualities lies in the forward-facing, twin counter-rotating propellers with individually steerable pods under the hull.

Volvo Penta Aquamatic Sterndrive gives direct response to boats spanning from 20 to 45 feet. The common rail engines deliver massive torque from low revs for safe maneuvering and rapid acceleration onto the plane. The highly efficient drives turn power into performance with precise and direct steering.

Many cars actually use a Dexron III ATF or some derivative of it - logical considering that power steering, like a transmission, is also a high pressure and temperature hydraulic system. Volvos and many other European cars, however, usually spec some sort of specific power steering fluid. In my case, the recommended fluid is Pentosin CHF 202.
