ADVERTISEMENTS: The analysis of existing work method can provide a starting point for a synthesis of suggested improvement in job performance. The technique specially designed for improving work method is called the process improvement formula. The four steps of the formula are: (i) Eliminate the unnecessary activities. ADVERTISEMENTS: (ii) Combine two or more activities. (iii) [...]

Improving Work Methods by Implementing the Process ...

Work measurement is concerned with the determination of the amount of time required to perform a unit of work. Work measurement is very important for promoting productivity of an organization. It enables management to compare alternate methods and also to do initial staffing. Work measurement provides basis for proper planning. Since it is concerned with the measurement of time it is also called 'Time Study'.
