This book is a road map to changing students' brains and lives for the better. For kids of any age, who are struggling with ADHD, learning disorders, emotional challenges, or just not interested in reaching their potential, this book can be a "game changer." Schooley shares the "how-tos" with specific exercises, illustrations and success stories.

Enna is a girl who doesn't believe in herself and often utters the phrase "I can't do that!" One night in a dream she sees all the possible future versions of herself, discovering that she can be any of those versions with time, knowledge and dedication. She develops a growth mindset throughout her journey and instead of saying "I can't do that," she learns to say "I can't do that YET!".

A father teaches his daughter all about bicycle riding, from selecting the right bike to trying again after a fall.

Beatrice is so well-known for never making a mistake that she is

greeted each morning by fans and reporters, but a near-error on the day of the school talent show could change everything.

Presents information about the human brain and nervous system, especially as it develops through adolescence, and offers advice for young people whose brains are going through these changes.

It doesn't matter if RJ hears compliments or constructive feedback, he is never sure how to respond. With guidance from his family, RJ learns why feedback, even when it's difficult to accept, is information he can use to become a better person.

Each brain finds its own special way -- that's the message in this delightful, colorful story by America's foremost expert on learning and childhood development. Edward Hallowell, M.D., is a noted psychiatrist and teacher and a leading authority on attention deficit/hyperactivity disorder. At many of his lectures worldwide he has read a story he wrote for children about how each person's brain is unique -- and it has resonated among the thousands of parents, teachers, and others who have heard it. *A Walk in the Rain with a Brain* is the illustrated version of that story. In it, a little girl named Lucy is making her way down a rainy sidewalk when she spies, of all things, a brain -- Manfred, called Fred -- sitting forlornly in a puddle. The courtly cerebrum asks Lucy for help getting home, and as they walk along she worries that she's not smart enough. "Everyone's smart!" explains Fred. "You just need to find out at what!" Fred reassures her that each child learns and thinks differently -- and that every child has special talents. Charming illustrations and a funny, whimsical story teach children to play and learn in order to find the strengths they have -- and a discussion guide at the end gives parents and educators the background support they need in order to help children understand and discover the sparkling individuality of their minds.
